Supplier Identification :

Component Manufacturer

Name : NR
Address : NR
NR
Country : NR

Chronology :

October 3, 2018 A customer reported finding a trailer missing a brake roller during their inservice inspection
October 7, 2018 The Statesboro manufacturing facility inspected all units remaining at their facility and identified 3 additional affected trailers.
October 8, 2018 Great Dane Warranty discussed with Great Dane engineering the effects of a missing brake roller.
October 11, 2018 A list of potentially affected VINs was completed.

Description of Remedy :

Description of Remedy Program : Any trailers discovered in the field with one or more missing brake rollers, will have a new roller installed, and the brake shoes and drum inspected for abnormal wear.

How Remedy Component Differs from Recalled Component : The new brake roller replaces a missing roller

Identify How/When Recall Condition was Corrected in Production : This condition was corrected in the manufacturing facility on October 7, 2018 when all remaining trailers were inspected and repaired.
