

GENERAL MOTORS LLC
Global Vehicle Safety

USG 4714
Part 4
September 20, 2018

The Honorable Heidi King
Deputy Administrator
National Highway Traffic Safety Administration
1200 New Jersey Avenue Southeast
Washington, DC 20590

Re: 49 CFR 583, Section 17 – American Automobile Labeling Act

Dear Deputy Administrator King,

Pursuant to 49 CFR 583.17, American Automobile Labeling Act, General Motors LLC is providing domestic content information as specified in Part 583, Section 17 for the 2019 model year vehicle carlines as listed in the enclosed attachment. This information is provided for passenger cars and light trucks with a gross vehicle weight rating (GVWR) equal to or less than 8500 pounds.

The 2019 model year has vehicle launches staggered throughout the 2018 calendar year and the beginning of the 2019 calendar year. This letter adds additional models to the letters dated February 16, 2018, March 16, 2018 and June 15, 2018. **Note that for the 2019 model year there are two different carlines for the Silverado/Sierra full size pick-up truck.** The old K2 carline is gradually being replaced by the new T1 carline. The T1 final assembly plants are located in Roanoke, Indiana and Silao, Mexico. The older K2 carline final assembly plant is located in Oshawa, Ontario.

This should be the last letter necessary for the 2019 model year. If corrections are needed we will send you an update. Please contact Robert McCann of this office, Matthew Jerinsky of our Washington, DC office or me in the event of any technical questions.

Sincerely,

Brian Latouf, Executive Director
Safety and Field Investigation,
Regulations and Certification

Cc: Mr. Kerrin Bressant
